TRUCK CLIMATE SYSTEMS

ULSD & "Bio Fuel" Compatible!

**TIRED
OF
HIGH
FUEL
PRICES?**

*Packaged in a
True Step Box Design!*

Lets face it - It's getting tougher out there being a trucker. Idle laws, hours of service, high fuel costs, sweltering heat and cold winters. Isn't it time you invested in an idle reduction system to make your life easier?

DID YOU KNOW - Most truck operators idle their truck engines as much as 40-50% just trying to stay comfortable. At a gallon of fuel per hour, this means your profits go up in smoke.

The Frigette Hybrid APU can save you thousands of dollars in annual fuel savings.

*Under-Bunk
Heat/Cool Unit*

**Battery
Charging**

**12,000 BTU
A/C**

**10,000 BTU
Bunk Heat**

**120-volt
Electricity**

**Burns only
1/10 gal/per/hr**

**Stand -
Alone
Engineering**
